

## Special Events & Fundraisers

**Let us know** – Whether it’s a public or private event or activity, we’d love to have the opportunity to be part of the event... even if just to have ***someone from United Way present to say Thank You.***

**Support for your events** – United Way staff are always available to provide honest feedback on special event ideas, share their experience and connect you to other company’s who may have held similar events.

**Plan early** – United Way has a small staff, planning early not only creates a better event but will increase UW staff’s ability to help out.

### Private Events

**Let us crash your party** – If you have a private event as part of your campaign, we’d love to stop in and say thank you.

**Keep the photos coming** – If UW staff is there, we’ll be sure to grab a few photos to share on Social Media. If UW staff is unable to attend, send along some photos and information and we’ll be sure to share.

### Public Events

**Let us know as soon as possible** – Whether it’s an email or social media, we want to help promote your public events. The sooner you can provide us details, the sooner we can post to our websites and share.

**We will crash your party** – United Way staff tries to attend as many of these events as possible and are always prepared to say Thank You or share a few words if asked.

**Don’t hesitate to ask** – United Way staff members are here to help and share our combined experience.
